Math Opportunity - From Jamil Steele

The following was sent to program directors.

KENTUCKY
Adult Education

Your future starts here!

Math help is on the way!!!

KYAE would like to offer individualized assistance in mathematics instruction for KYAE adult education programs.

Instructional math subject matter experts will be available to visit your program and spend a day or two working with one or more of your instructors. Before the visit, we will work with you to identify what specific math assistance you seek to benefit your program.

The visits are available on a first-come, first-served basis. Contact Jamil Steele j.steele@moreheadstate.edu now to reserve your visit.

Math assistance visit will target:

- Instructional strategies to guide and grow students' mathematical reasoning to higher levels to achieve GED® 2014 targets
- Implementation of the eight mathematical practices with instruction
- Sharing of best practices and resources
- Teaching by inquiry and formative assessment techniques
- Effective instructional practices
- Coaching and guidance

If you are interested, please contact Jamil Steele at j.steele@moreheadstate.edu with the best time to discuss your needs. He is excited about this opportunity to work with you and your instructors.
